Invitation to Participate in the 1st ASEAN Mineral Awards 2017

Dear Colleagues,

In accordance to the timeline of the 1st AMA as agreed during the 16th ASOMM Meeting in Kuala Lumpur, the first step of AMA is to collect nomination from each AMS. In this regard, as chairman for the 1st AMA, Indonesia would like to invite all AMS through its focal points to nominate mining companies to participate in the 1st AMA.

Referring to the Guidelines for AMA which has been endorsed by the 16th ASOMM meeting, winner will be selected in three categories, namely; Best Practices in Minerals Mining (including Quarry), Best Practices in Minerals Processing (including Smelting), and Best Practices in Minerals Distribution (including Transportation, Handling, Storage).

Each Member States is to submit maximum one project application for each category. Applications shall be submitted through its focal point and then collected to the Chairman of BOJ for endorsement. The deadline for endorsement is March 2017.

Evaluation of the project submissions is to follow the BOJ mechanism, while the announcement of winners and awarding ceremony are expected to be held during 6th AMMin in Myanmar.

Thank you for your cooperation.

Yours Sincerely,

Bambang Gatot Ariyono
Director General/
ASSOM Leader Indonesia
